

Zosnímaním tohto EANU sa na snímači ZEBRA DS2208 zapne Caps Lock a všetky zosnímané znaky budú ako kapitálky.

Simulated Caps Lock

Scan **Enable Simulated Caps Lock** to invert upper and lower case characters on the bar code as if the Caps Lock state is enabled on the keyboard. This inversion occurs regardless of the keyboard's **Caps Lock** state.

✓ **NOTE** Simulated Caps Lock applies to ASCII characters only.

✓ **NOTE** Do not enable this if [USB CAPS Lock Override on page 7-8](#) is enabled.

Enable Simulated Caps Lock

***Disable Simulated Caps Lock**
